PENN UNITED's can tooling division offers you our unique capability of producing components from the raw powder form completely through the finish grinding process. This complete control of the manufacturing process gives us a distinct advantage in producing the highest quality parts available at competitive prices. With our in-depth quality assurance system you can be sure of the accuracy and quality of every part we manufacture. We can help with the selection and customization of materials, coatings and grades specifically for your needs. Please contact us for more information on how we can help you. We hope you will join our family of satisfied customers.
