Penn United Defense offers precision manufacturing to the military, aerospace, ammunition, weapon systems and other sectors of the industry.

We have been delivering precision manufacturing services to our customers since 1971 and are standing by to meet your most challenging manufacturing applications. Penn United Defense specializes in solving tough mechanical issues leading us to the development of more economical ways of manufacturing components for defense industry applications. Utilizing our stamping expertise we have provided more cost effective means to manufacture various defense industry components which were previously machined. Penn United has produced parts adhering to much tighter tolerances by utilizing our skills with high precision machining and has exceeded previous suppliers' quality and efficiency.

PENN UNITED'S PRECISION SERVICES INCLUDE:

- Tungsten and Silicon Carbide Components
- Precision Metal Stamping Dies
- Precision Machining
- Precision Stamping
- Precision Tooling
- Prototyping
- Waterjet
