

# THE NEW FACES OF *MODERN* MANUFACTURING

**Name:** Brett Bowser

**High School:** First Baptist Christian School/Butler Vo-tech

**Job Title:** Journeymen Machinist

**Coolest thing about your job:**

I get to transform a solid block of steel into a usable tool that helps make everyday life easier and more convenient for the general public.

**Hobbies:** I like to go to the range at the sportsman club, hanging out with friends, trading stocks, and fixing and refurbishing things.

**Career Goals:** Someday, I would like to be a process engineer or a team leader.

**What did you want to be when you were a kid:**

I wanted to be a DEA Agent (Drug Enforcement Administration) to help with the drug epidemic.
