

THE NEW FACES OF *MODERN* MANUFACTURING

Name: Derek Burk
High School: Butler High School
Job Title: Apprentice – Surface Grinder

Coolerest thing about your job:

I make components that go into the progressive stamping dies used in the electronic, oil and gas, automotive, medical and military industries.

Hobbies:

My hobbies are hunting, fishing, boating, golfing, softball, and skiing.

Career Goals:

One day I would like to be a tool and die builder and trouble shoot dies.

What did you want to be when you were a kid:

I wanted to be an MLB catcher until tenth grade. Then I knew I wanted to be in the manufacturing field because college would not be my thing.
